

Gill Dolbear FCR MSc PgCL&T DCRR DMU
Chair
Allied Health Professions Federation

Brief Biography

Gill Dolbear has been on the AHPF Board since November 2008 and was elected as the President of the Society and College of Radiographers in July 2009. She has served on the SCoR UK Council since 2005 and has been involved with key initiatives relating to career progression and the link to cost effective services, making SCoR membership count and seeing the results in terms of growth.

Qualifying as a radiographer in 1982 Gill has held a variety of posts before becoming a specialist clinician in ultrasound and computerised tomography. In 2002 she went on to complete an MSc in Interprofessional Health and Community Studies and has moved into the world of AHP education as the Programme Director for the MSc Medical Imaging Programme at Canterbury Christ Church University.

From this background in both service delivery and education Gill also brings her own values and integrity to the role of Chair AHPF.

In Gill's own words..."*Over the next two years I look forward to seeing empowered AHPs leading change and delivering services, that are not only patient centred but are patient led, across whole care pathways and therefore crossing traditional boundaries between health, social care, education and local government. I look forward to seeing AHPs at the centre of this sustainable social care model and to enhancing the leading role of the AHPF on their behalf.*"
